Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	<i>Describe customer with 3-4 key characteristics - who are they?</i>	Loan applicants, salaried individuals, self-employed borrowers, small business owners who need financial support.
I'm trying to	<i>List their actions or goals - what are they trying to achieve?</i>	Get my loan approved quickly, easily and with the best possible terms.
but	<i>Describe what problems or barriers stand in the way - what stops them now?</i>	The loan process is complicated, requires lots of documents and takes a long time.
because	<i>Enter the "root cause" - why the problems or barriers exist - what needs to be solved?</i>	Manual verification, complex eligibility checks and lack of real-time data analysis cause delays and confusion.
which makes me feel	<i>Describe the emotions from the customer's point of view - how does it impact them?</i>	Frustrated, stressed and uncertain about loan approval status.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a loan applicant	get my loan approved quickly and easily	the approval process takes a long time	manual verification and document checking are time-consuming	frustrated and uncertain
PS-2	a bank loan approver	evaluate loan applications accurately and faster	there are too many applications and risk of human error	data is in different formats and verification is done manually	overwhelmed and pressured to make correct decisions
